

## SPEED-RAIL<sup>®</sup> SAFETY SHIELD

### Product Data Sheet

Hollaender Manufacturing Company, the original manufacturers of Speed-Rail<sup>®</sup> fittings is proud to introduce **Speed-Rail<sup>®</sup> Safety Shield**.

Speed-Rail<sup>®</sup> Safety Shield combines the versatility, durability and ease of assembly of Speed-Rail<sup>®</sup> fittings to create a durable, mechanically fastened safety barrier. Speed-Rail<sup>®</sup> Safety Shield components can be integrated with most types of acrylics to help maintain social distance and physical separation. It can be used for sneeze guards, workspace barriers, cashier shields and other clear partitions to help keep your employees and your customers safe. The Speed-Rail<sup>®</sup> Safety Shield can be easily modified on the job with simple tools to fit virtually all applications and environments. The components are manufactured from aluminum-magnesium 535 and can be anodized or powder coated to match any design preference.
